Chia-Hsin Huang, Tyng-Ruey Chuang, Hahn-Ming Lee

November 2005 **Proceedings of the 2005 ACM symposium on Document engineering****DocEng '05****Publisher:** ACM PressFull text available: pdf(442.96 KB) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Document Object Model (DOM) and Simple API for XML (SAX) are the two major programming models for XML document processing. Each, however, has its own efficiency limitation. DOM assumes an in-core representation of XML documents which can be problematic for large documents. SAX needs to scan over the document in a linear manner in order to locate the interesting fragments. Previously, we have used tree-to-table mapping and indexing techniques to help answer structural queries to large, or large c ...

Börkur Sigurbjörnsson, Jaap Kamps, Maarten de Rijke

November 2004 **Proceedings of the thirteenth ACM international conference on Information and knowledge management CIKM '04****Publisher:** ACM PressFull text available: pdf(237.89 KB) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Document-centric XML collections contain text-rich documents, marked up with XML tags that add lightweight semantics to the text. Querying such collections calls for a hybrid query language: the text-rich nature of the documents suggests a content-oriented (IR) approach, while the mark-up allows users to add structural constraints to their IR queries. Hybrid queries tend to be more expressive, which should lead---in principle---to better retrieval performance. In practice, the processing of t ...

Advanced Web Search

You can use the options on this page to create a very specific search. Just fill in the fields you need for your current search.

Yahoo! Search

Show results with

all of these words	<input type="text"/>	any part of the page	<input type="text"/>
the exact phrase	<input type="text"/>	any part of the page	<input type="text"/>
any of these words	<input type="text"/>	any part of the page	<input type="text"/>
none of these words	<input type="text"/>	any part of the page	<input type="text"/>

Tip: Use these options to look for an exact phrase or to exclude pages containing certain words. You can also limit your search to certain parts of pages.

Updated

anytime

Site/Domain

- ☒ Any domain
☐ Only .com domains ☐ Only .edu domains
☐ Only .gov domains ☐ Only .org domains

☐ only search in this domain/site:

Tip: You can search for results in a specific website (e.g. yahoo.com) or top-level domains (e.g. .com, .org, .gov).

Creative Commons Search

BETA

- ☐ Search only for Creative Commons licensed content
☒ Find content I can use for commercial purposes
☒ Find content I can modify, adapt, or build upon

Tip: This special Yahoo! Search finds pages that have content with a Creative Commons license. [Learn more...](#)

File Format

Only find results that are: all formats

SafeSearch Filter

Applies to this search only:

- ☐ Filter out adult Web search results - SafeSearch On
☒ Do not filter Web results (results may include adult content) - SafeSearch Off

Advisory: Yahoo! SafeSearch is designed to filter out explicit, adult-oriented content from Yahoo! Search results. However, Yahoo! cannot guarantee that all explicit content will be filtered out.

[Learn more](#) about protecting children online.

Tip: If you'd like to block explicit content for every search, you can set this in [preferences](#). Keep in mind that this filter may not block all offensive content.
